

STATEMENT OF PURPOSE

Healthcare is a human right. No one should face bankruptcy or death because of lack of healthcare. Everybody should be able to access the healthcare they need, whenever they need it. It means that every child, no matter where you are born, should have access to a college or trade-school education if they so choose it, and I think no person should be homeless if we can have public structures and public policy to allow for people to have homes and food and lead a dignified life in the world. Just like education, healthcare also needs to be given importance. We have a moral obligation to get healthcare to people who need it.

Introduction:

I am **Aarushi Wadhwa**, would like to introduce myself as a **responsible and loving Indian Citizen**. I am writing this statement of purpose to put forth my reasons for applying for the **Post-Baccalaureate Diploma in Health Care Management program at the reputed Cape Breton University, Canada**. In this letter I would also illuminate my personal, familial, and educational background and my goals for my future as well.

Family & Financial Background:

In my family, my father is a businessman & my mother is a housewife. Moreover I have a younger brother who is a Private Employee in India. I got married on 1st September 2022 with **Sahejdeep Kalra**, by profession he is a Businessman. I would also like to specify upon the **consent and willful participation of my family in this decision** as they are **fully supportive of my decision to seek out growth and cater to my personal development** as a **professional**. My husband & mother-in-law, are supporting me financially for my overall expenses in Canada. I also hail from a **financially well to do background** where there is no need for concern regarding the **expense of my education and living in Canada**; which is further illustrated by the **timely submission of the requested dues** in the form of my **GIC (Guaranteed Investment Certificate) for CAD\$ 10000/- and Tuition Fees of CAD\$ 17,702/- for the first year**. The **annual income** of my family is **INR 14,33,466 /-** along with sufficient **Immovable and Movable/Liquid assets**; which I believe will be sufficient for my overall expenses in **Canada**.

Academic Records:

I completed my **Matriculation with 7.6 CGPA** as well as my **Senior Secondary** from a school **affiliated to Central Board of Secondary Education** in the year **2010 and 2012** respectively. After completing my **higher Intermediate**, I enrolled myself for **Bachelor of Dental Surgery** under the accreditation of **Rajasthan University of Health Sciences** and completed it in the year **2017**. Afterward, I had been working as an intern with **Surendera Dental College & Research Institute** from January 2018 to January 2020. In 2020, I have been registered as a **Registered Dentist** under the provisions of the **Indian Dentists Act** by **Punjab Dental Council**. I worked as an **Assistant Dentist** in **Assija Dental Clinic** from 4th January 2020 to 25th August 2022. Now I am working as an **Assistant Dentist** in **Gera Dental Care & Facial Surgery Center** from 15th November 2022 to till date. Further I am choosing to pursue a **Post-Baccalaureate Diploma in Healthcare Management** from the **Cape Breton University, Canada**.

Linguistic Abilities:

In **December 2021**, I have given an attempt at the **IELTS** and scored an **overall of 6.5 scores** with individual scores being **7.0 in Listening, 6.0 in Reading, 6.5 in Writing and 6.5 in Speaking**.

Immigration History and Justification:

I wish to underline that I have applied for the same course and college twice but the **Canadian Embassy** has turned down my request both the times due to unclear purpose of visit and not being consistent. Regarding the same, I

Aarushi Wadhwa

would like to assure you that I am a genuine student having a clear vision regarding my future. I am constantly trying to improve myself. Moreover, I am applying for the same course and college in Canada for the third time in a row which illustrates my determination and consistency. My only purpose to visit Canada is to get quality education from a reputed institute. After the accomplishment of this program, I will be confident enough to commence my own dental clinic and provide my services at my native place.

Course Selection of Post-Baccalaureate Diploma in Healthcare Management:

Due to the significant change in the lifestyle of people, increasing population, and rising proposition of lifestyle diseases has to the high demand for medical aid. Many medical professionals work on the front lines of a healthcare organization, directly caring for patients. One of the main aspects of medical aid is dental health care which is often neglected by people. Not to forget, if neglected, it can lead to severe health issues. Dental health is important because uncontrolled bacteria and bad oral health can lead to oral infections, tooth decay and gum diseases. In my previous education, I have a specialized degree in Dental Health and an internship of two years in the same field. However, when I considered to venture in the workforce and start-up my own dental clinic, I wasn't confident enough to do so. An international degree will equip me with all the necessary techniques as well as practical expertise coupled with global exposure; which will help me to set up my dream clinic and provide top-notch dental services to the people in my native land.

What I will learn:

The program will upgrade my professional profile as well the international exposure will help to cater to the development of my personality. I will study health care delivery systems, health care terminology, business computing applications, medical office administration, transition to the health office, and much more. After the completion of the program, I will be capable enough to coordinate and assess the administrative task, incorporating awareness of medical properties, availability of resources, and detail orientation; which will help me to run my clinic efficiently. To understand and transcribe health care materials competently in support of client treatment, integrate health care terminology with anatomy and physiology ideas. I will also learn the technological usage of computer applications, and software in record keeping, producing business and health care documents, etc. To promote favorable client outcomes, compile material from a range of sources to create instructional booklets and deliver basic health care knowledge and demonstrate professional behavior that complies with current legislation, professional standards, and community expectations. After analyzing the course details and its outcome, I finalized to enroll myself in this resourceful program.

Selection of Canada:

I chose Canada as my study destination because it has one of the top education systems in the world and a wide range of degrees and courses. Canada is a multi-cultural country and it is the most popular nation where thousands of international students opt for higher education. The country offers the least number of distractions and a welcoming environment to foreign students. It boasts of a considerable number of internationally renowned universities. After the United States and the United Kingdom, Canada is the best education hub. Furthermore, tuition and living expenditures are lower in Canada, and living standards are among the greatest in the world. Canada is an excellent choice for international students. Thousands of students travel to Canada each year because the country is particularly cosmopolitan. Canada is one of the most job-creating countries, with many prospering tech businesses and an increasing number of start-ups and entrepreneurs. Furthermore, Canada is endowed with natural beautiful wonders such as castles, lakes and rivers, sights to see, cathedrals, and many more. Overall, my study experience in Canada would provide me with not only international exposure but also the opportunity to build professional and interpersonal skills. Hence, I am sure that I will truly enjoy my educational journey smoothly.

The reasons to opt for Cape Breton University have been derived from the various factors. One of the main reasons for choosing Cape Breton University is that it is a renowned university with a flexible education system and a strong belief that everyone has an equal right to an education. Other factors include the exceptional educational standards maintained by the university, the advanced level of training and practical experience provided to the students, course availability, and cost-effectiveness that urged me to enroll myself here. Cape Breton University offers a fantastic student experience with a diverse range of undergraduate and postgraduate degrees. All of their courses have a heavy emphasis on employability and low-cost learning options. Obtaining admission to this university will provide me with the opportunity to learn from a supportive and dedicated academic team with many years of industry expertise, as well as an environment to study among a truly international student cohort, comprised of ambitious individuals from all over the world.

The Scope of Healthcare Management in India:

With main areas of specialization, this subject has a very broad scope. A dental practice's health depends on the use of healthcare management systems. These management skills aid in automating time-consuming activities so that front office and clinical teams can concentrate on direct patient encounters. Apart from getting job options in the mainstream dental practice, after finishing this course, numerous doors to better opportunities will open up for me. Healthcare management plays an important role in efficient functioning of medical facilities according to policies and guidelines and delivers quality healthcare. It is also crucial for the management of business operations and typically responsible for staffing, budgets, public relations, patient rights, finances, liaison and other administrative tasks.

Career Pathway:

I can seek working opportunities in Hospitals, Clinics, medical, Healthcare offices communities or service agencies, and insurance companies to get some experience. This program will upscale my job position and help me to grow financially in the healthcare industry. I can grab the officer or managerial positions such as administrative officer, administrative secretary, insurance compliance manager, healthcare manager, nursing home administrator, research manager, and much more. There is no point in bothering about the job profiles as countless job profiles are waiting for the skillful candidates in India. However, as per my long-term goal, I am determined to set up my own dental clinic and run it efficiently.

Incentives to return to India:

I am an individual who is truly appended to their family and I have been raised with the quality that it is the preeminent obligation of the youngsters to serve their folks and take great consideration of them in their advanced age. In addition to this, the profits guaranteed on this course are profoundly helpful both to my vocation and the underlying monetary expense that my family will accomplish for me. I am likewise guaranteed of the way that I will be getting once again to my nation of origin upon the completion of my vocation because of the reasons expressed previously. Finally, the choice to quit for this specific nation is gotten from my very own exploration of the attainability of worldwide understudies possessing various nations and undertaking a similar course.

Conclusion:

After completing my studies, I intend to return to my native country India with confidence to apply the knowledge and abilities I have gained toward accomplishing my professional goals. As a result, my experience would broaden my vision and perspective, which would go a long way toward helping me fulfil a longstanding desire of being a

great manager and working with other famous healthcare organizations. Aspirants like me who are looking for a job have a lot of options because organisations in India value international exposure when making hiring decisions.

Lastly, I request you to kindly consider my application, and with great hope I am eagerly waiting for your benevolent act of granting me Canadian Study Visa so that I can accomplish my goals in life.

With Regards,

AarushiWadhwa.
