

STATEMENT OF PURPOSE

I Safiullah Sheriff request your good selves to kindly consider my application for the program MSc in Project Management from Royal Holloway University of London, UK. Considering my educational background and work experience so far, I have completed my secondary and senior secondary education with good academic scores. Afterwards I have undergone Bachelor of Engineering in Mechanical Engineering and completed in 2017. After my studies I started my professional career with VAAN Elevators, Chennai as Site Engineer and Customer coordinator, worked there during the period (May 2017 – January 2018)

And after that placed at another company WABCO India Private LTD, Chennai and started worked there as Process Quality Engineer (January 2018– October 2019)

After worked in India for couple of years got a placement in Dubai, United Arab Emirates and started worked there for ENTEGRA Facility Management LLC DUBAI UAE as Site Coordinator from (March 2020– October 2020) and currently working in Emirates Post – Dubai, UAE as operation executive from November 2020 – Present.

I enjoying my job and believe that it is quite promising. Nevertheless, I believe that it is essential to update my knowledge in the modern tools used. The dynamic nature of the sector makes it more challenging and demanding one's consistent upgrading of knowledge and skills. As such, I believe that it's right time for me to take the next critical decision in my life-to do higher studies in my domain of interest. The professional exposure and experience which I have, taught me a lot and made me aware of the importance of acquiring more skills, knowledge and exposure to stay relevant and broaden my career prospectus. For that matter, I am looking forward to pursuing this program from your esteemed institution. By pursuing this program, I would like to extend my knowledge, skills and ability to an advanced level.

WHY STUDY MSC PROJECT MANAGEMENT

Project management is in demand in several industries due to the nature of this work. Both non-profit and for-profit organizations need individuals who are able to manage projects from start to finish, including the planning and development stages as well as the execution stage. From allocating resources to managing timelines and budgeting, project managers have a lot of responsibilities to handle.

When you work in this type of job, you may come across key advancement opportunities, such as taking on a senior position in project management at your organization. In order to boost your chance to land one of these higher positions, a project management skillset can help set you apart from the competition. A master's degree effectively demonstrates you're willing to go above and beyond in this type of career. Keep in mind that having access to these advanced positions means you could increase your earning potential while also enjoying a successful career.

WHY STUDY IN THE UK

The reason why I choose UK as my study destination is that I went through various educational programs that are available in India; however I found them very traditional and provides very less practical knowledge. I really feel that the selected program is a right choice, as the course is designed very practically. UK education standards are highly regarded, with experts on many academic topics. UK is noted for its academic excellence and Quality of education. Also, the humble acceptance towards International students and the peaceful atmosphere in the country made it easy to choose my study destination. Compare to other

countries, the living and health-care costs are reasonable in the UK. The country has multi-cultural atmosphere that is difficult to find in any other country.

WHY THIS UNIVERSITY

Royal Holloway University of London is known for providing exceptional support services to overseas students. Royal Holloway University of London is among United Kingdom's leading universities for employability. Royal Holloway University of London offers a diverse selection of educational opportunities that are both professionally valuable and experience-oriented. This university is well-known in the United Kingdom and throughout the world for its accomplishments. Beyond the academic degree, the Royal Holloway University of London offers students the opportunity to work on real-world projects, gaining the experience and self-confidence that employers seek. The undergraduate and postgraduate programmes at Royal Holloway University of London are complimented by a diverse range of international grants and scholarships.

WHAT AFTER GRADUATION

After my successful program completion, I will return to my home country India to start my career as Project manager or any other relevant fields which needed my project management skills & This is the right time for me to upskill my knowledge in advanced academics. I can work in the Multinational companies in my country with my updated knowledge.

I hope that program will definitely mould me as a real professional in the industry as I always wanted in my life. Having an international certification from a recognized University in UK is going to be a golden feather on the crown of my academics which can really help to increase my job prospects worldwide.

So I kindly request you to consider my application and grant me the permission to pursue the program Msc Project Management from Royal Holloway University of London
