OUR STORY

For decades now, a major part of our identity and social-professional standing has been our "degree" qualification. Thus, it's no surprise that the youth today is indulged in a "Rat Race" for their desired university; all of it just to get that "degree". Amidst all this, many lose out on what they desire, which results in many losing heart and hope.

Only if there was any guidance at this crucial moment when students need it the most!

"Education Vibes" understand this pain of students and working continuously to empower the students across India to choose higher study options.

We are a technology driven platform aiming to keep the hopes and dreams of students alive through a constant guidance and oversight in their journey from application to admission. From showing the plethora of opportunities out there to helping students to get the best university to study at Abroad, Education vibes gives the push you need to live your Dream.

Pranay Mishra
Managing Director

IS AN MBBS ABROAD OPPORTUNITY WORTH PURSUING?

Each year, thousands (if not lakhs) of Indian students get left out of the Government Indian medical colleges due to inadequate NEET scores. This is primarily due to the limited number of seats here, and a disproportionately huge number of aspirants; thus, increased competition for each seat. This means that many deserving candidates get left out over the thinnest of margins and are forced to enroll in private institutions that charge an extremely high fee. In such a case, MBBS abroad comes as a great alternative.

This is primarily because almost all the medical colleges abroad are public i.e. government funded, which means students won't have to pay much to be enrolled there. At the same time, these universities offer state-of-the-art classrooms and laboratory equipment that are at par with the best private medical colleges of India.

These universities also guarantee globally recognized degrees as well as are accredited and recognized by the WHO, NMC/MCI, FAIMER, ECFMG, USMLE, and many other medical boards and agencies worldwide.

What's even more assuring is the fact that the entire admission procedure, right from registration to enrollment, is extremely smooth and hassle-free. One requires no entrance tests or donation/capitation formalities for enrolling!

MAJOR PERKS

- No entrance tests or English Proficiency Tests like IELTS/TOEFL required.
- Students are only required to pass the NEET Exam to be eligible for MBBS abroad.
- No need to worry about the high cutoffs as is the case for MBBS in India.
- Universities abroad follow globally updated curriculum.
- Tuition fees abroad begin at a mere INR 13-14 Lakh approximately, for the entire program. This is way less than the INR 70-80 Lakh in Indian medical colleges.
- Admission to PG courses after MBBS abroad is easier due to the global acceptance and eligibility of the degree.
- Finally, students pursuing MBBS abroad get to learn and work according to globally accepted standards.

TESTIMONIAL

Manjiri Laxmikant Londhe
Maharashtra

I am very thankful for Education Vibes because when all my hopes were gone, Education Vibes supported me and showed me a ray of hope. Thank you to Siddharth sir, Abhigyan sir, Rajeshri mam for their invaluable support. We can believe in Education Vibes by closing our eyes.

BASHKIR STATE MEDICAL UNIVERSITY, RUSSIA

Swatantrika Shewale
Maharashtra

Education Vibes really helps me in for all the processes that we have to go through. From college selection to accommodation, really good service appreciated.

YAROSLAV-THE-WISE NOVGOROD STATE UNIVERSITY, RUSSIA

Safoora Karnalka
Pune, Maharashtra

Education Vibes has incredible opportunities in multiple countries, they also provide counselling sessions to the students who are confused about their career. They even have multiple offers on selective occasions for students to grab the opportunities which is very beneficial. The admission process was very smooth.

EAST EUROPEAN UNIVERSITY, GEORGIA

Rashmi Rajan
Patna, Bihar

The experience was really very good. All the associates of the consultancy are really very cooperative and understanding. All of them have done a splendid job for the admission of students and also taking their career in the abroad.

GEORGIAN AMERICAN UNIVERSITY, GEORGIA

Hamza Ali
New Delhi

With Education Vibes, global education truly becomes achievable. They make everything so easy. Very, very helpful! Thanks a lot for helping me with getting there! Very helpful and approachable staff!

OREL STATE UNIVERSITY, RUSSIA

Atharva Sah
Uttar Pradesh

I am safe and everything is fine. Education Vibes helped me very efficiently to reach here and I hope in future also it supports me, as it is supporting now.

ADMISSION PROCESS

Last Mile Connectivity

5

Right from receiving you at the airport to carrying out the on-campus formalities and finalizing the enrollment, we are there by your side throughout it all. We're with you till the end of the line!

Visa Stamping and Pre Departure

4

We are there to help you right from the Visa Application till the Dispatch of your Student Visa, and related formalities. Additionally, we also get your mandatory medical checkup done and provide you with a local SIM of the country.

Documentation & Letter of Invitation

3

We ensure that your documents are scrutinized by the requisite agencies and the notarized translations (if any) get done in a quick and swift manner.

Once done, students will get the Letter of Invitation from the country where the university is located. This officially confirms the student's candidature.

Candidates don't even have to be present for this; they can mail us their documents!

Registration Assistance and LoR

2

We offer hand holding services throughout the admission process. We help the student register their personal and academic details correctly on the university website. Furthermore, we ensure that their application is quickly accepted and Admission Letter/Letter of Recommendation (LoR) generated.

Counseling and University Selection

1

Students can reach out to our expert counselors anytime of the day. Our well-experienced and qualified counselors work closely in tandem with you to ensure that you select the right destination and your admission into only the most genuine and top-notch university. Our catalog of universities only filters out the top rated institutions. We also help you out with the educational loan!

MBBS IN RUSSIA

1. Top Government Universities approved by NMC and WHO.
2. An MBBS in Russia is 6 years long, which includes 5 years of coursework (theory+ practical) and one year clinical internship in hospitals
3. Student visas take 5-6 working days from application to dispatch.
4. Language of teaching for complete medicine course is English for international students.
5. Russian universities fees are quite lesser and affordable in comparison with Indian private colleges for MBBS.
6. Most Russian universities are close to bus depots and metro stations. There are even dedicated university buses for students.
