An Enterprise of : Late Smt. Vidyawanti Labhu Ram Foundation for Science Research & Social Welfare

No. SDC&RI/22/ 26956

Dated:- 06-07-2022

To whom it may concern

I am pleased to recommend Dr. Aarushi Wadhwa for Master's Degree programme in your University after having known her at Surendera Dental College and Research Institute. During this interaction, I came to know about her passion for dentistry and her willingness to pursue higher education in this field.

I would rate Dr. Aarushi Wadhwa overall performance as far above the average, as is reflected by her academic record. During college, she presented various insightful presentations on diverse topics. In group tasks, she always took responsibility and helped her fellow classmates consolidate vast amounts of information into coherent ideas, emerging as a team leader. She was also part of a yearlong paid rotatory internship as part of her studies in her training. She also contributed towards the community by being an active member of the free dental camps held by the college. She demonstrated a special talent for working with the patients, by calming their nerves and making them feel comfortable with the dental treatment. For them, she efficiently diagnosed the dental problems and implemented treatment plans. She performed many dental procedures under my supervision. Along with providing treatment for patient's problems, she made sure to educate her patients regarding the benefits of maintaining good oral health, which provided long term benefits to patient.

While she was here, she quickly made friends with fellow classmates and staff members. She showed an inborn thirst to learn new skills and to perform to the best of her capabilities. She worked on every case with enthusiasm and exhibited great work ethics by always being on time.

I would highly recommend Dr. Aarushi Wadhwa for your program because she is an exceptional candidate. Furthermore, I believe that studying at your University will provide her with valuable knowledge and will deepen her understanding of patient care. If you have any questions regarding this recommendation, please do not hesitate to contact me.
