LETTER OF RECOMMENDATION

I am pleased to recommend **Ms. Riya Giridhar** for the Master's Program at your University. I have known her for three years now, and hence I can confidently discuss her skills and qualities. I taught her the subject of Business Communication- 2 in semester 2. She is a highly motivated and sincere student, who has actively capitalized on every opportunity our college had to offer.

On observing her over the period of these three years I found that she has a never ending zeal for trying out new things and experimenting and making the most out of it. She is also a keen observer and adapts easily according to her surroundings. She has always been a very active student who participates in most of the activities inside and outside college. Apart from being good at academics she is also a trained Indian classical dancer which makes her a great multitasking and multi-talented personality. During her tenure as a Class Representative she acted as a really great bridge between the subject teachers and students in her class and successfully conveyed the messages to each other.

She has a good command over English language and can communicate and express her ideas and thoughts clearly in both Verbal as well as written communication. She is very open to communicating with others and very outgoing. She had also written two articles for the Bachelor of accounting and finance department's newspaper called as BAF Times and effectively expressed her opinions on the topics chosen.

Overall, she has a very strong sense of community and teamwork. She has demonstrated excellent leadership skills and has consistently proven to be a valuable student for our college and I am sure she will continue to do so wherever she is a part of. Thus, I strongly recommend Ms Riya to your esteemed institution and wish her the best in the same.

Sincerely,

Mansi
