## Letter of Recommendation

I am gratified to introduce **Dr. Aarushi Wadhwa** who has been my student for the past five years. It is during this period of time that I had ample opportunity to estimate her theoretical and practical capabilities. I found her to be sincere and hardworking student who is willing to put in a lot of effort and care into the task at hand. She has always been attentive in class and eager to apply the concepts taught in class to practical use. When it comes to class interactions, she has volunteered to give seminars, this had made her more confident and good with her communication skills. She is sincere and punctual in completing the tasks / project work assigned to her.

I taught her **Periodontology** in her academic curriculum where I learnt that she tackles tasks given to her with good confidence and make sure to meet her deadlines.

On evaluation of her abilities in academics as well practical, I am confident that she will prove herself to be a sublime graduate student. I therefore **strongly recommend her candidature for admission** in your respective institution.
